

1. Go to mail.[YourDomainName.com](#).

The screenshot shows a login form titled "Application X Mail". It includes a text input field for "Email Address (e.g., user@example.com)", a text input field for "Password", a checkbox for "Remember me", a dropdown menu for "Use Browser Language", and a "Login" button. At the bottom, there is a link that says "Switch to the mobile interface".

2. Click on Settings

The screenshot shows the "Account Settings" page in SmarterMail Enterprise 14.1. The left sidebar contains a "Settings" menu with various options like "My Settings", "Account Settings", "Account Profile", "Auto-Responder", "Connected Services", "Trusted Senders", "Signatures", "Events", "Synchronized Devices", "Calendar Settings", "Filtering", "Sharing", "Advanced Settings", "Domain Settings", "General Settings", "Users", "Aliases", "Chat History", "Events", "Trusted Senders", "Signatures", "Notification Profiles", "Shared Resources", "ActiveSync Mailboxes", "Personalization", "Filtering", and "Advanced Settings". The main content area shows the "Account Settings" form with a "Save" button and tabs for "User", "Webmail", "Compose", "Forwarding", and "Plus Addressing". The form fields include: Username (ralynda), New Password (empty), Confirm Password (empty), Display Name (RaLynda Lee), Reply-To Email Address (empty), Time Zone ((UTC-06:00) Central Time (US & Canada)), and Backup Email Address (empty).

3. Enter your new password. Your password needs to have a Capital letter, lowercase letter, Number, and a symbol for security.
